First/Corresponding author & main contributor

[1] A. A. Vigliano, F. Longo, and Ž. Bošnjak. "Reassessing high-energy emission correlations in gamma-ray bursts using a large, homogeneous sample of X-ray afterglows". In: *Astron. Astrophys.* 710 (2026), A393. DOI: 10.1051/0004-6361/202558494. arXiv: 2605.25644 [astro-ph.HE].

Conceived the analysis, developed the methodology, performed the data analysis, wrote the paper

[2] A. A. Vigliano. "Novel strategies for the observations of fast gamma-ray transients". Publicly available online. PhD thesis. Università degli Studi di Udine, Udine, Italy, 2025.

PhD thesis. I conceived the analysis, developed the methodology, performed the data analysis, wrote the paper

[3] A. A. Vigliano and F. Longo. "Gamma-ray Bursts: 50 Years and Counting!" In: *Universe* 10.2 (2024), p. 57. DOI: 10.3390/universe10020057.

A review of the history of gamma-ray burst observations and studies. I conducted in-depth historical and scientific research and wrote the manuscript.

[4] A. Kouchner, A. A. Vigliano, and M. Lamoureux. "Detection and phenomenology of cosmic neutrinos". In: *PoS* QG-MMSchools (2024), p. 005. DOI: 10.22323/1.440.0005.

A review of the history of observations and studies of astrophysical neutrinos as part of the Second School of the COST Action QGMM. I conducted extensive historical and scientific research and wrote the manuscript.

[5] A. A. Vigliano et al. "Gamma Ray Burst localization with GECCO's BGO anti-coincidence shields". In: *PoS* ICRC2023 (2023), p. 748. DOI: 10.22323/1.444.0748.

Conceived the analysis, developed the methodology, performed the data analysis, wrote the paper

Contributor

[6] J. Jahanvi, A. A. Vigliano, and F. Longo. "Wakefield Acceleration in Gamma-Ray Bursts". In: *Condensed Matter* 11.3 (2026). ISSN: 2410-3896. DOI: 10.3390/condmat11030025. URL: https://www.mdpi.com/2410-3896/11/3/25.

Contributed to the scientific and editorial review of the manuscript and to the preparation of the figure

[7] R. Aloisio et al. "Crystal Eye: All sky MeV monitor with high precision real-time localization". In: *Astroparticle Physics* 174 (2026), p. 103171. ISSN: 0927-6505. DOI: https://doi.org/10.1016/j.astropartphys.2025.103171. URL: https://www.sciencedirect.com/science/article/pii/S0927650525000945.

Contributed to the evaluation of the localization capabilities of transient events (especially GRBs) through classical and ML techniques

[8] R. Alves Batista et al. "White paper and roadmap for quantum gravity phenomenology in the multi-messenger era". In: *Class. Quant. Grav.* 42.3 (2025), p. 032001. DOI: 10.1088/1361-6382/ad605a. arXiv: 2312.00409 [gr-qc].

Contributed to writing and review. Active member of the COST Action QGMM and co-proposer of its followup COST Action BridgeQG

[9] A. Campoy-Ordaz et al. "Search for Lorentz Invariance Violation with time-lag on gamma-ray Cherenkov Telescope data : From the data to the time lag constraints". In: *PoS* QG-MMSchools (2024), p. 009. DOI: 10.22323/1.440.0009.

Contributed to the writing (tutorial section of the paper)

[10] A. Coogan et al. "Hunting for dark matter and new physics with GECCO". In: *Phys. Rev. D* 107.2 (2023), p. 023022. DOI: 10.1103/PhysRevD.107.023022. arXiv: 2101.10370 [astro-ph.HE].

Contributed with the evaluation of the detector's capabilities

[11] A. Donini et al. "Performance study update of observations in divergent mode for the Cherenkov Telescope Array". In: *PoS* ICRC2023 (2023), p. 840. DOI: 10.22323/1.444.0840. arXiv: 2309.14106 [astro-ph.HE].

Contributed as an expert on tessellation strategies for the follow-up of poorly localized transient events

The publications listed below are large-scale collaborative works. I am member of both analysis and operations teams contributing to data taking, validation, and internal reviews.

Collaboration papers

[12] G. Principe et al. "Broadband multiwavelength properties of the archetypal blazar 3C 279 during the 2017 Event Horizon Telescope campaign". In: (June 2026). arXiv: 2606.25868 [astro-ph.HE].

[13] K. Abe et al. "Detection of the distant quasar OP 313 with the first Large-Sized Telescope of CTAO". In: (May 2026). arXiv: 2605.26681 [astro-ph.HE].
